FOR THE SPRING 2019 STARGATE ELECTION:

Call to Action:

In preparation for the spring election, please **reconfirm** that you have a VALID EMAIL address in Infinite Campus. We will collect the email addresses from Infinite Campus 30 days prior to the spring election. Even if you believe your email is correct, please double-check. **Your vote depends on it!**

Stakeholders who have a "qualified email address" that is registered with **Infinite Campus** will ALSO receive an email which will also enable them to vote.

Infinite Campus Link: <https://ic.adams12.org/campus/adams12.jsp>

What is this "qualified email address"?

A "qualified" email address has three characteristics (and all must be satisfied to vote by email):

1. Your email address must be current. A **current** email address is one that you check regularly (i.e. daily). It can be a work or personal email address, but it must be one that you know works and you are actively able to use.
2. Your email address must be valid. A **valid** email address is one that has been entered correctly. Examples of valid email addresses are: bob21@gmail.com, dogsforbonas33@comcast.net, elmer.furdt@hotmail.com. Examples of *invalid* addresses are: *bobsemailnodomain*, *baddomain@gmail.cnm*, and *missingatsign.com*.
3. It must be unique. A **unique** email address is one that is NOT SHARED (because we can only send one ballot per email address).

Audience participation time: Do you know who is responsible for ensuring they have a current, valid, and unique email address registered in Infinite Campus (where we get the list of stakeholders and their email addresses) 30 days prior to the election?? **YOU ARE!**
