Re: Approval of Proposed Land Use and Zoning Change at NE Corner of 144th & Washington

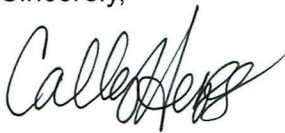

Dear Council Members:

Stargate Schools would like to express our support of the proposed Evergreen development located at the NE corner of 144th & Washington. Stargate and Evergreen have worked together for over a year to create terms that will be acceptable to all parties. These conversations have culminated in agreements that the Stargate Governance Board, Stargate Foundation, and Stargate Administration feel are in the best interest of the school for both the long and short term.

Stargate Schools fully support the proposed zoning change and conceptual plan. We look forward to collaborating with our future neighbors for many years to come.

We appreciate the Council's consideration of this matter. Please feel free to contact us with any questions.

Sincerely,

Calley Herzog  
Board President

Apryl Sweat  
Foundation President

Lynne Allen  
Director of Finance and Operations
